

A joystick/grip to USB (1.1, 2.0, 3.0) interface adaptor, capable of supporting 2 dual axis joysticks and 12 button inputs. Microsoft Windows recognizes the device and uses the native joystick drivers. Available as a board assembly or in an enclosure. A version that fits inside our JS-01 and JS-02 is also available.

Typical Analog Input Wiring

Typical Digital Input Wiring

Mechanical:	Min.	Typ.	Max	Units	Comments
Board					
Length		67		mm	
Width		18		mm	
Height		6		mm	
Enclosure					
Length		114		mm	
Width		25		mm	
Height		23		mm	
Electrical:	Min.	Typ.	Max	Units	Comments
Analog Inputs (6 Total)	0		5	VDC	
Digital Inputs (12 Total)	0 (Off)		5 (On)	VDC	
Operating Voltage			5	VDC	
Drivers		Window s			XP, Vista, 7 (32 and 64 bit)
Environmental:	Min.	Typ.	Max	Units	Comments
Operating Temperature	0		60	Deg. C	
IP Rating		40		IP	In standard enclosure (IP 68 available).
