

Description

In addition to our adapter bushings, we also stock mounting adapter studs for the L, X, S, P, and K series control handles. These are available in straight and bent styles and in a variety of thread sizes. Custom options may also be available.

Features

- Wide range of threads and lengths
- Straight and angled options
- Custom options may be available, inquire with the factory (info@controlgrips.com)

Specifications:

Materials: Steel

Threads sizes: See table below

NOTE: Many threadlockers will emit fumes while curing that can damage the ABS plastic parts of a control grip. If using a threadlocker, ensure it is compatible with aluminum and ABS.

Mounting Adapter Studs:

ST-01	M12 x 1.75 x 40mm	ST-07	M14 x 2.0 x 60mm, bent
ST-02	M14 x 2.0 x 40mm	ST-08	M12 x 1.75 x 60mm, bent
